Instructions

Clicking on the navigation bar (Large black background with 3 rows of links) anywhere will bring you to the 'Change in Population' page, clicking it again will bring you back to the 'Referendum – Marriage Equality' page.

MARRIAGE EQUALITY PAGE

Each of the 2 graphs and the map have their own tooltip appear when the mouse is hovering over them, the tooltip disappears when the mouse is not hovering over them.

Clicking on the Ireland map will change all the graphs. The Ireland map will be set to highlight a few of the southern counties and the 2 graphs on the left will alter to only display data of those highlighted counties.

Clicking in the white area above the 'Filter' text instructions will revert the graphs/map to their non-filtered states.

CHANGE IN POPULATION PAGE

Same as the marriage equality page, each of the 2 graphs and the map have their own tooltip appear when the mouse is hovering over them, the tooltip disappears when the mouse is not hovering over them.

Clicking on the 'SEX' filter will alter the graphs/map to change their data from 'BOTH SEXES' to 'FEMALE'.

Clicking in the white area above the 'Filter' text instructions will revert the graphs/map to their non-filtered states.

Note: The hover tooltip does not work when the map and graphs are in a filtered state*

The tooltips will flicker if the mouse is moving over them as the cursor is technically not hovering over the graph anymore*
